

Dolphin

Otter

I'm semi-aquatic so I spend half my time in water and half on land.

Seal

Crab

How do they breathe?

Aquatic animals have different ways of getting oxygen. Fish take in water and oxygen using **gills**. Others, such as turtles and dolphins, come to the surface for air.

Goldfish

Seahorses

Clownfish

Blue tang

I'm one of the few reptiles that lives in the ocean.

Sea turtle

Octopus

Penguin

Starfish

Sea urchin
