

Trip to the tropics

They're hot, wet, and exploding with life!

Tropical **rainforests** are home to almost half the life on Earth.

Scarlet
macaw

Blue morpho
butterfly

Parakeet

Great
hornbill

Capuchin
monkey

The very top layer of the trees in the rainforest is called the **emergent** layer.

Howler
monkeys

oooooooooooooooooww!

Sloth

The **canopy** is high up in the trees, where there are lots of branches.

Green tree
python

Toucan
