

Engineering *HIS* future

Leonardo had left Milan because the French forces had arrived. Would the same army march on Florence as well?

Fortunately, after a flurry of treaties and alliances, Florence was spared from any immediate French conquest. But even with the French threat removed, the city was not safe from attack for long.

Cesare Borgia

The new danger was a young military leader named Cesare Borgia. He was the illegitimate son of Pope Alexander VI, who ruled his own empire from Rome. Borgia's army was currently in northern Italy, conquering territory in his father's name.
