

# MAKING A TWIST-TOP GIFT BOX

## Materials

- \* Tracing paper
- \* Pencil
- \* Decorative paper or wrapping paper
- \* Glue stick
- \* Card
- \* Scalpel
- \* Cutting mat
- \* Ruler
- \* Blunt knife (or pair of scissors)

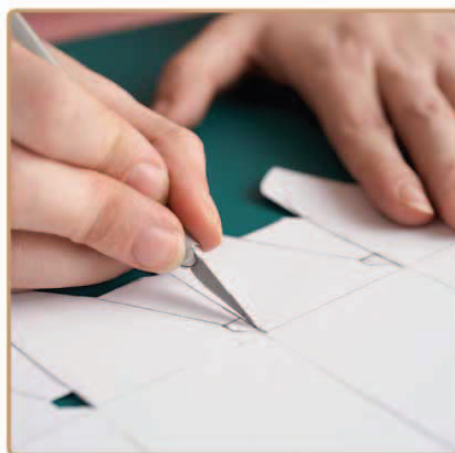

**1** Use a photocopier to re-size the twist-top box template on pp.116-117, if required. Use tracing paper and a pencil to transfer the pattern onto a sheet of card.

**2** Glue a sheet of wrapping paper or decorative paper to the reverse of the card. Alternatively, you could use patterned card to make the box.

**3** Using a scalpel and cutting mat, carefully cut around the pattern. First cut along the outermost lines of the template.

**4** Next, using the template on pp.116-117 as a guide, cut into the shape along the lines marked as cutting lines. Finally, remove the small shapes in the top as marked.
