

4 Apply glue to the tops of the cane toppers, then glue these to the middle of each of the painted terracotta saucers. Leave to dry completely.

5 Apply several dabs of glue to the base of each cup or bowl and stick them in place on the saucers. Don't glue all the way round – this will allow water to drain out easily.

6 Insert the canes firmly into the ground. Support with stones if needed, then fill with beed seed.
