

HOW TO DECORATE CERAMICS

Materials

- * Ceramic vase
- * Ballpoint pen
- * Tracing paper
- * Scissors
- * Baby wipes or damp cloth
- * Red transfer paper
- * Masking tape
- * Black, food-safe ceramic pen or paint in a dispenser

1 Clean the vase to remove any loose dust or grease from the surface. Draw a design of your choice onto tracing paper (with a mix of dots and solid lines) and cut it to fit the vase.

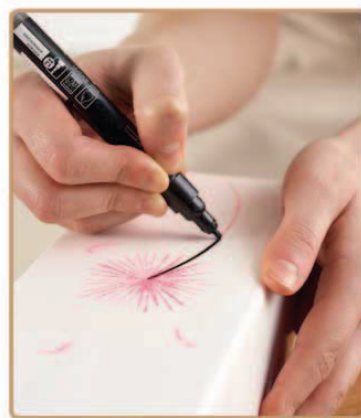

2 Place a sheet of transfer paper behind the template and cut out each motif. Tape to the vase, with the transfer paper underneath.

3 Using a ballpoint pen, firmly trace the design onto the vase. Use solid lines across some of the dots as these show up best.

4 Remove the template and check that the lines are visible. If not, wipe away the trace lines and repeat the process, pressing down more firmly.

5 Use a ceramic paint pen or paint to draw the solid lines in one continuous motion.
