

5 Place the brim on the edge of the main fabric crown, right side to right side and matching the centres. Put the lining fabric crown on top, matching the front edges and sandwiching the brim in between. Stitch along the edge, through all the layers, then turn through to the right side and iron.

6 Matching the markings on the pattern, pin the main fabric back to the free edge of the main fabric crown, right side to right side. Make 5mm ($\frac{1}{4}$ in) snips along the curved edge.

7 Sew along the pinned curved edge leaving a 1cm ($\frac{1}{2}$ in) seam allowance. Iron the seam towards the centre of the bonnet. Repeat steps 6 and 7 to join the lining back to the lining crown. Turn the bonnet right side out.

8 Join the bottom edge of the back by pinning the free edges of the main and lining backs together, matching the seams. Stitch along the entire length.

9 Pin the tie bands to the two front corners below the brim, 5mm ($\frac{1}{4}$ in) from the bottom edge. Position them so they stick outwards, as shown. Stitch them in place.
