

HOW TO MAKE CROCHETED JEWELLERY

Materials

FOR THE CHUNKY BRACELET

Use any small amounts of DK yarn for this project, or try different weights – the chain will simply get thicker or thinner depending on the weight of the yarn.

x 1

- * 3.5mm crochet hook
- * Yarn needle
- * Approx 1cm (1/2in) button or bead for fastening

FOR THE BEADED NECKLACE

Use any yarn for this project – it only uses a very small amount so is perfect for using up scraps. The chain will simply get thicker or thinner – just make sure that the thread can fit through the holes of the beads you have chosen

x 1

- * 2mm crochet hook
- * 1.5mm beading hook, or size needed to fit through your beads
- * Yarn needle
- * Selection of beads

CHUNKY BRACELET

NOTE Increasing the number of strands of yarn you hold together to crochet with will vary the bracelet's thickness.

Pattern

With a single strand of yarn, make a chain to your desired length, plus 5 ch. Ss into fifth ch from hook. Fasten off yarn, weave in ends.

2-strand variation

With 2 strands of yarn, make a chain to your desired length, plus 4 ch. Ss into fourth ch from hook. Fasten off yarn, weave in ends.

3-strand variation

With 3 strands of yarn, make a chain to your desired length, plus 3 ch. Ss into third ch from hook. Fasten off yarn, weave in ends.

Finishing

Sew a bead or button to the opposite end from the loop fastening.

1 When the chain is the desired length, make a loop by working an extra 5 chains and then make a slip stitch into the fifth chain from the hook.

2 Attach a bead or button securely to the opposite end from the loop using the same yarn, and then weave in loose ends.
