

HOW TO MAKE A DÉCOUPAGE BANGLE

Materials

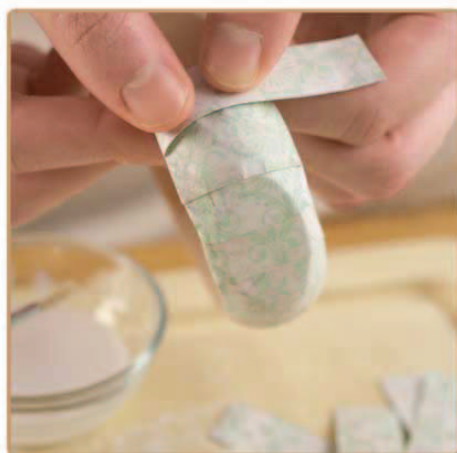

- * Ruler
- * Bangle (wooden or plastic)
- * Scissors
- * Craft glue
- * Solid, coloured or patterned backing paper
- * Decorative paper motifs
- * White tack
- * Paintbrushes
- * Craft point
- * Glitter (optional)
- * Clear varnish

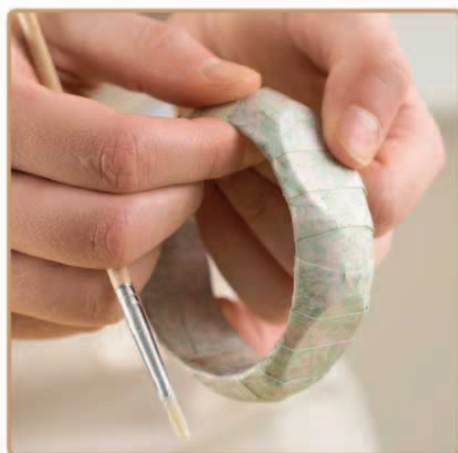

1 Measure the distance around the side of the bangle. Cut paper strips, 1.5cm ($\frac{5}{8}$ in) wide and long enough to wrap around the bangle. Cut enough strips to cover the bangle.

2 Spread glue all over the back of one paper strip, but don't soak it. Position the strip around the edge of the bangle so that the ends overlap on the inside. Remove any air.

3 Continue adding strips, overlapping slightly with each previous strip, until you have covered the bangle completely with the backing paper.

4 When you have finished this stage, check that each strip of paper is firmly glued down. Smooth out any bumps or wrinkles, adding more glue as necessary.
