

Fashion cutouts

These dolls are decorated with paper cut from cupcake cases and patterned paper from old magazines.

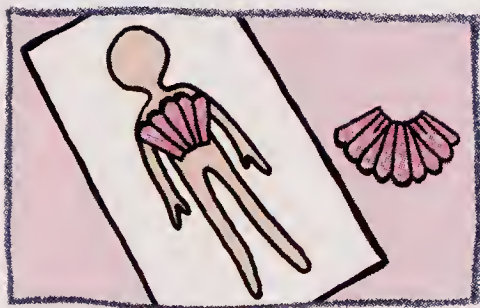

282 Make a doll

1. Draw a simple shape for the doll's body, then cut it out. Glue it onto another piece of paper.

2. Flatten a cupcake case and cut a piece from it for the bodice of a dress. Cut a larger piece for the skirt.

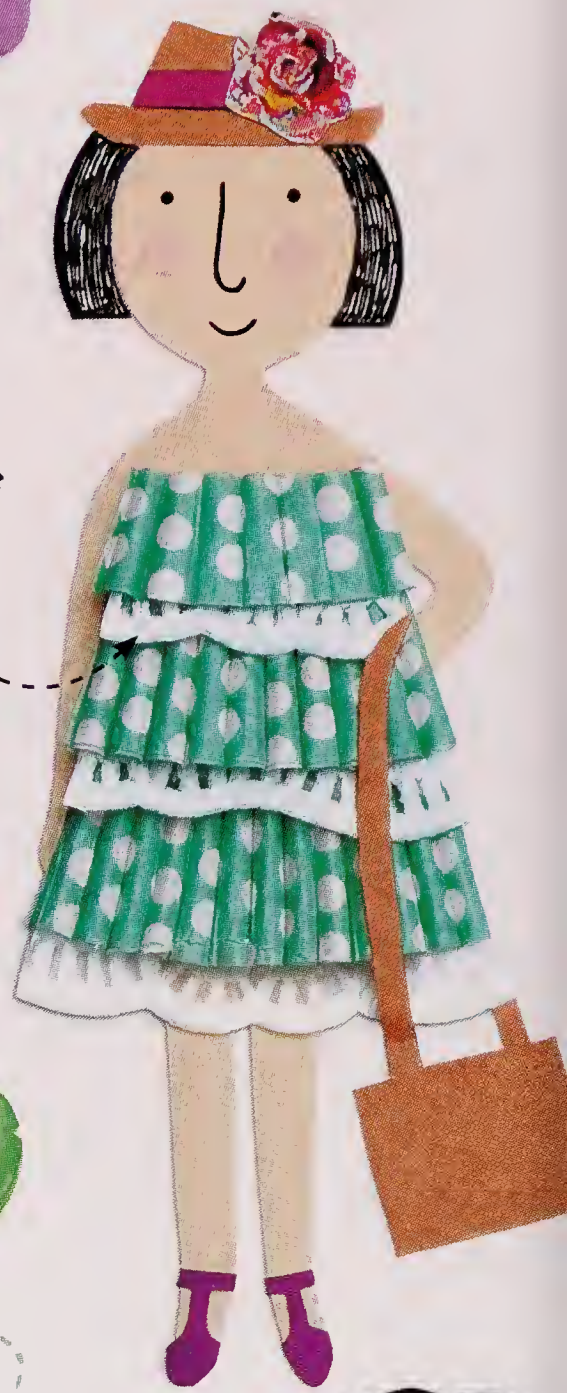

3. Glue on the bodice. Then, pinch the top of the skirt so that it is the width of her waist and glue it on.

4. Cut a strip of paper and glue it on as a belt. Cut out paper shoes and glue them on, too. Draw a face and hair with a felt-tip pen.

These layers of lace were cut from a paper doily.

283

Accessories

Cut accessories such as bags, bows, hats and sunglasses.

284

High heels

Cut out shoes or boots with narrow strips for heels.
