

Cardboard city

Use the ideas on these pages to make lots of buildings. Make them different shapes and sizes, and cover them with different black and white patterns.

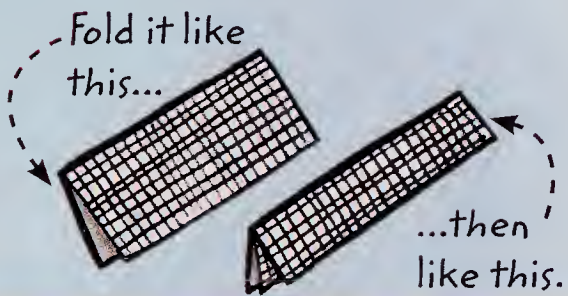

289 Construct a skyscraper

1. Draw lines going across and down a piece of white paper.

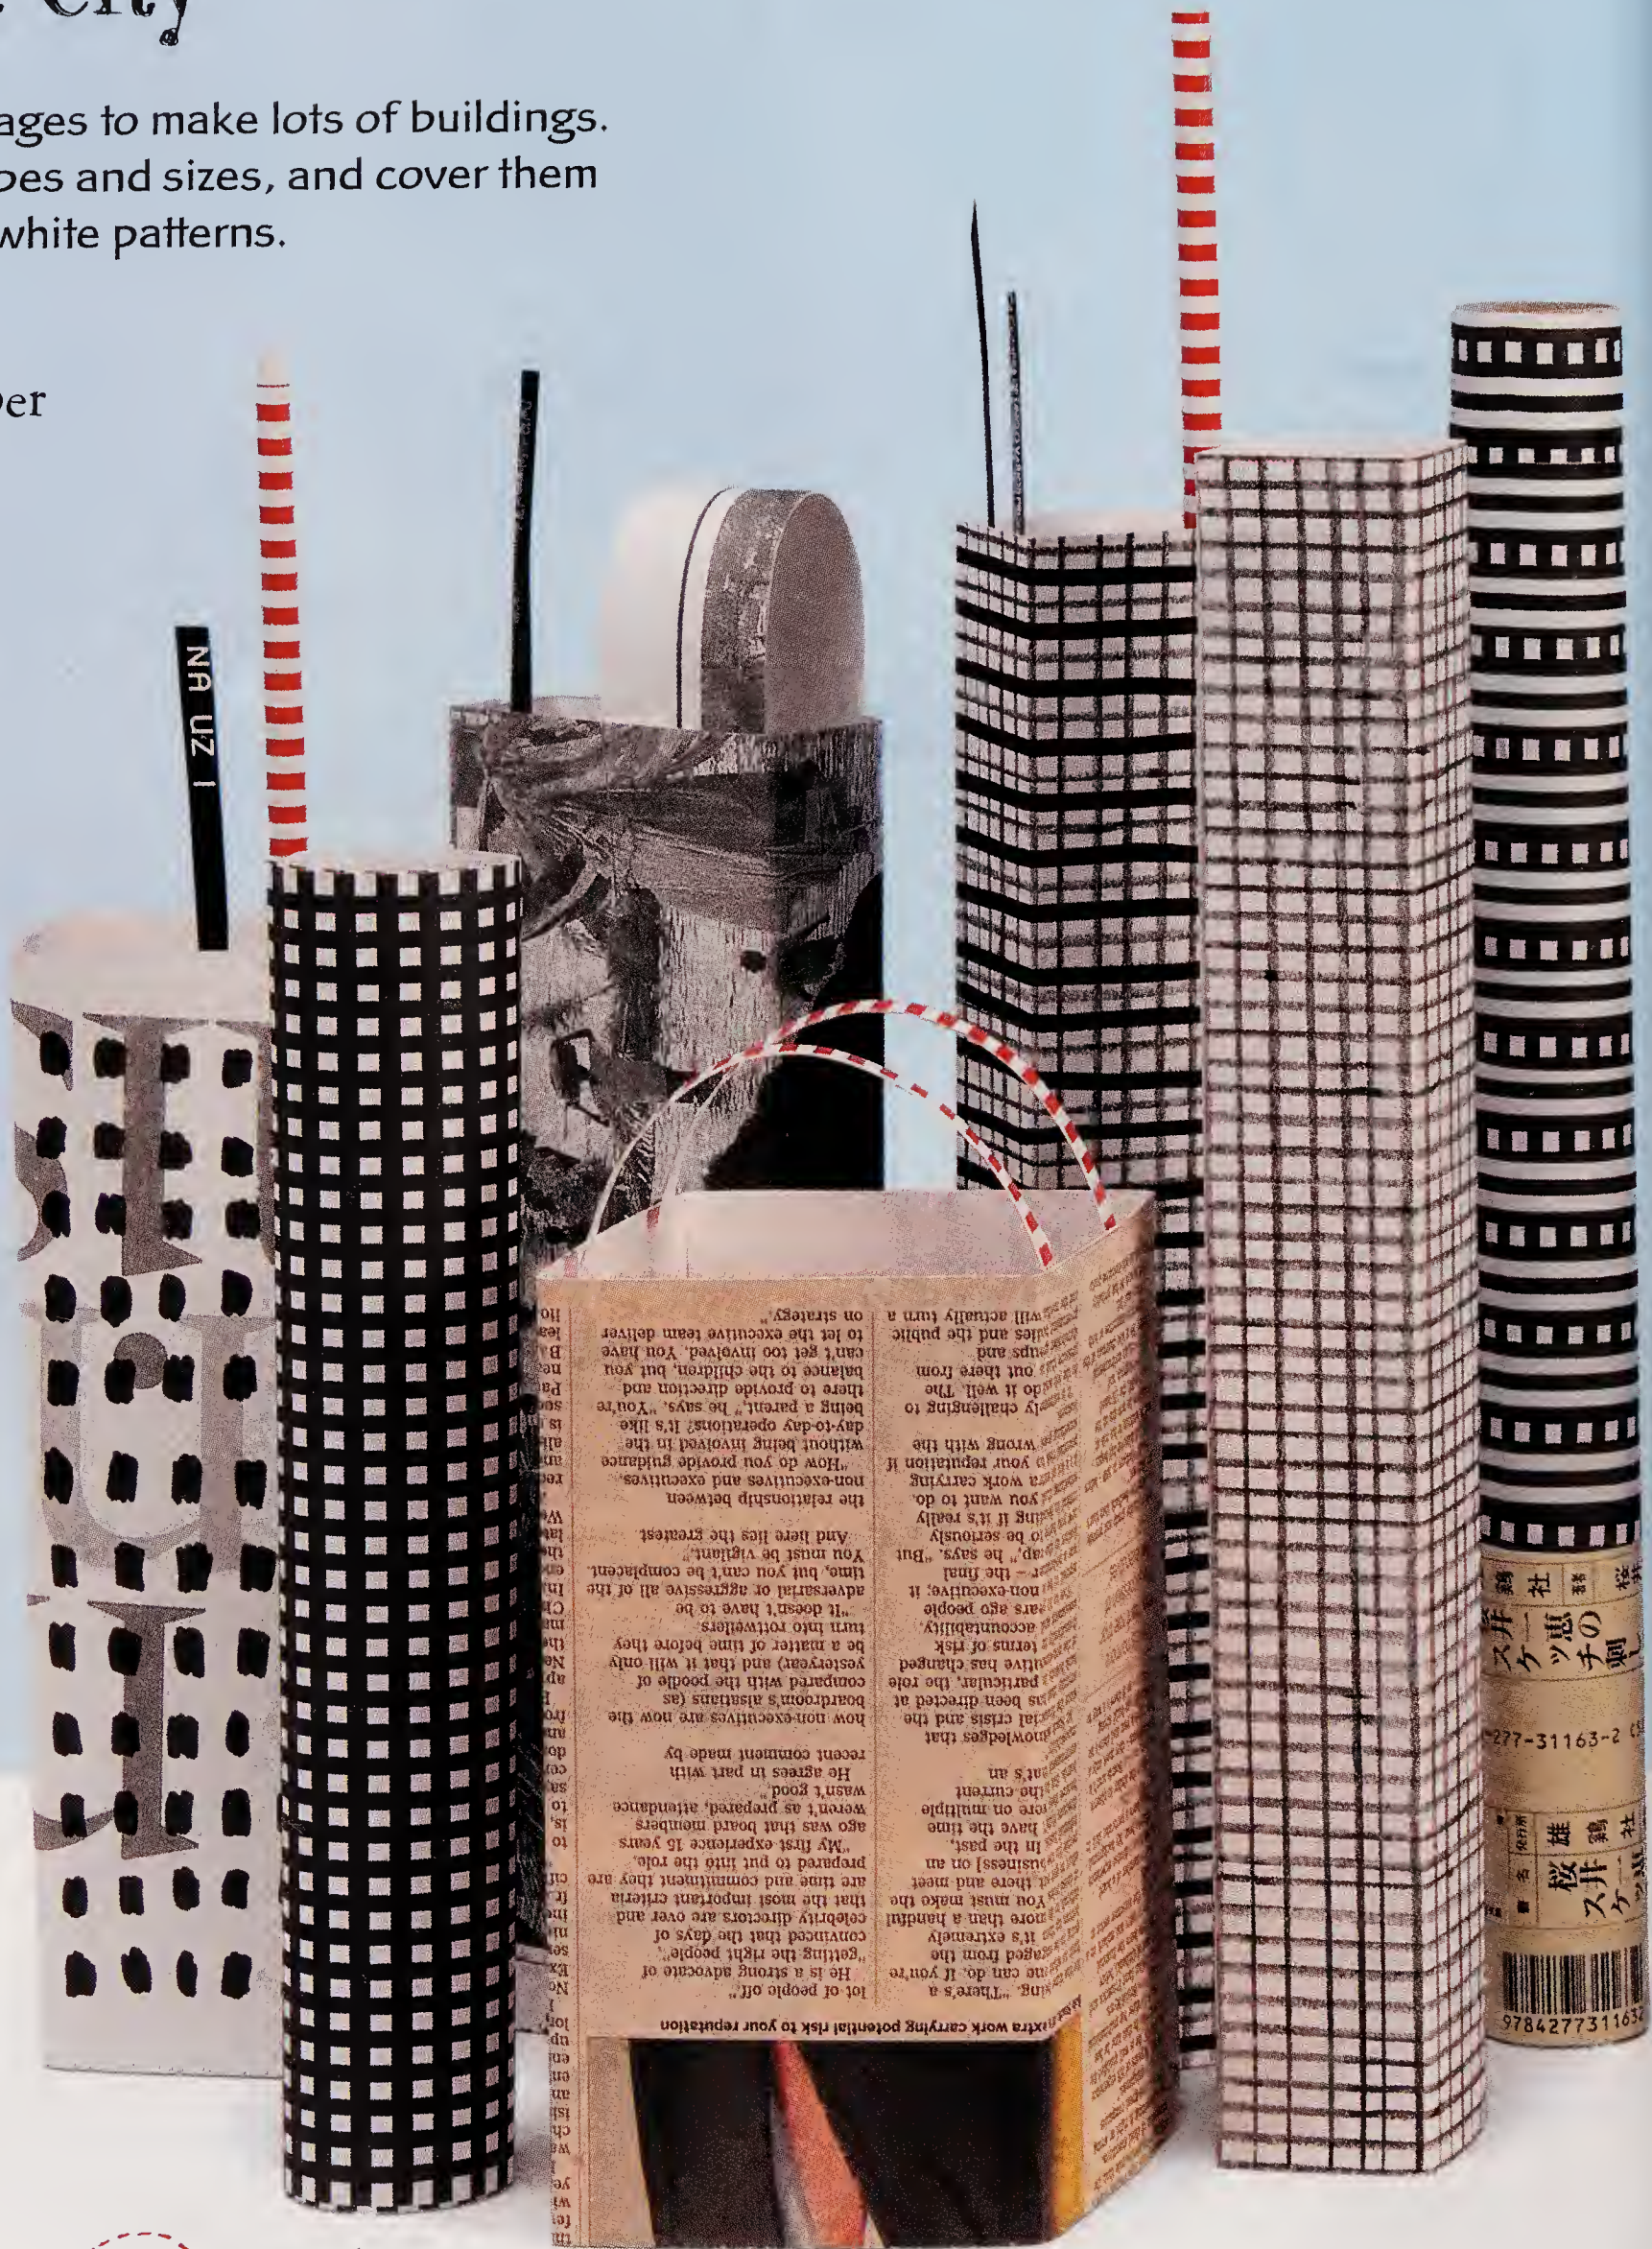

2. Glue the paper onto a piece of thin cardboard.

3. Fold the cardboard in half, and in half again. Then, unfold it.

4. Tape the edges of the cardboard together to make a tall skyscraper.

290 Round tower

Decorate a piece of thick paper with black patterns. Roll it to make a tube and tape it together to secure it.

291 Newspaper building

Cover the cardboard with a piece of newspaper instead of decorating it with a pen or pencil.
