

292 Radio masts

Cut strips from cardboard or make thin rolls of paper. Tape them inside the top of a building.

293 Add a roof

Cut a strip of paper the same width as the building. Tape one end inside the building, then bend the other end over and tape it inside, too.

294 Triangular tower

Follow steps 3 and 4 on page 8 to fold the cardboard into a triangular shape.

295 Lots of windows

Draw rows of rectangles onto the paper before gluing it onto the cardboard.

This statue was made from crumpled-up foil.
