

Newspaper castle picture

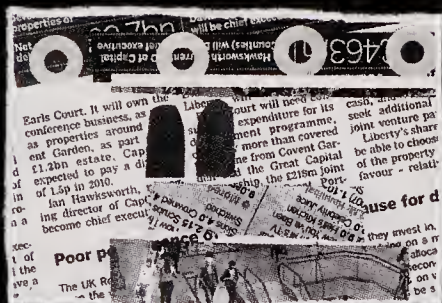

296 Make a castle

1. Cut out a rectangle for the main part of the castle. Glue it onto some black paper. Add some battlements and towers.

2. Cut different shapes of windows from dark pictures, or photos, from newspapers and glue them on.

3. Press on some reinforcing rings for circular windows.

297 Ladder

Cut two long strips of paper and glue them on side-by-side. Glue on shorter strips for the rungs.

You could add a figure climbing on the ladder.

298 Turrets

Cut out triangular roofs and glue them onto the tops of the towers.
