

### 335 Waggy tail

Draw some thin lines, the same curved shape as the tail. Then, add another line across them.

Add lots of scribbled lines for shaggy fur.

You could add a tongue with a pink pen or pencil.

### 336 Big dog

Cut out a skinny body and a big head. Draw a neck and very long legs.

To make a dog look as if it's jumping, draw movement lines under the back legs.

### 337 Sleepy dog

Draw 'u' shapes for closed eyes and add legs, splayed out under the body.
