

341

Moon and stars

Glue on a paper moon, and draw or paint lots of stars across the sky.

All these stars were drawn with white and yellow pencils.

You could add chimneys to some of the roofs.

343

Trees

Draw wavy shapes for trees and cut them out. Glue them in between the buildings.

342

Roof windows

Cut out shapes like those above and glue them onto a roof. Draw windowpanes on them with a pencil.
