

Cardboard cake collage

All the cakes on these pages are made from scraps of paper, cardboard and some cupcake cases.

344 Make a tiered cake

Cut rectangles of different sizes and glue them onto a piece of paper with the largest at the bottom. Decorate each layer with lots of shapes, such as hearts and circles.

345 Candles

Cut thin rectangles from foil and glue them on the top layer. Add tissue paper flames, then draw the wicks with a thin felt-tip pen.

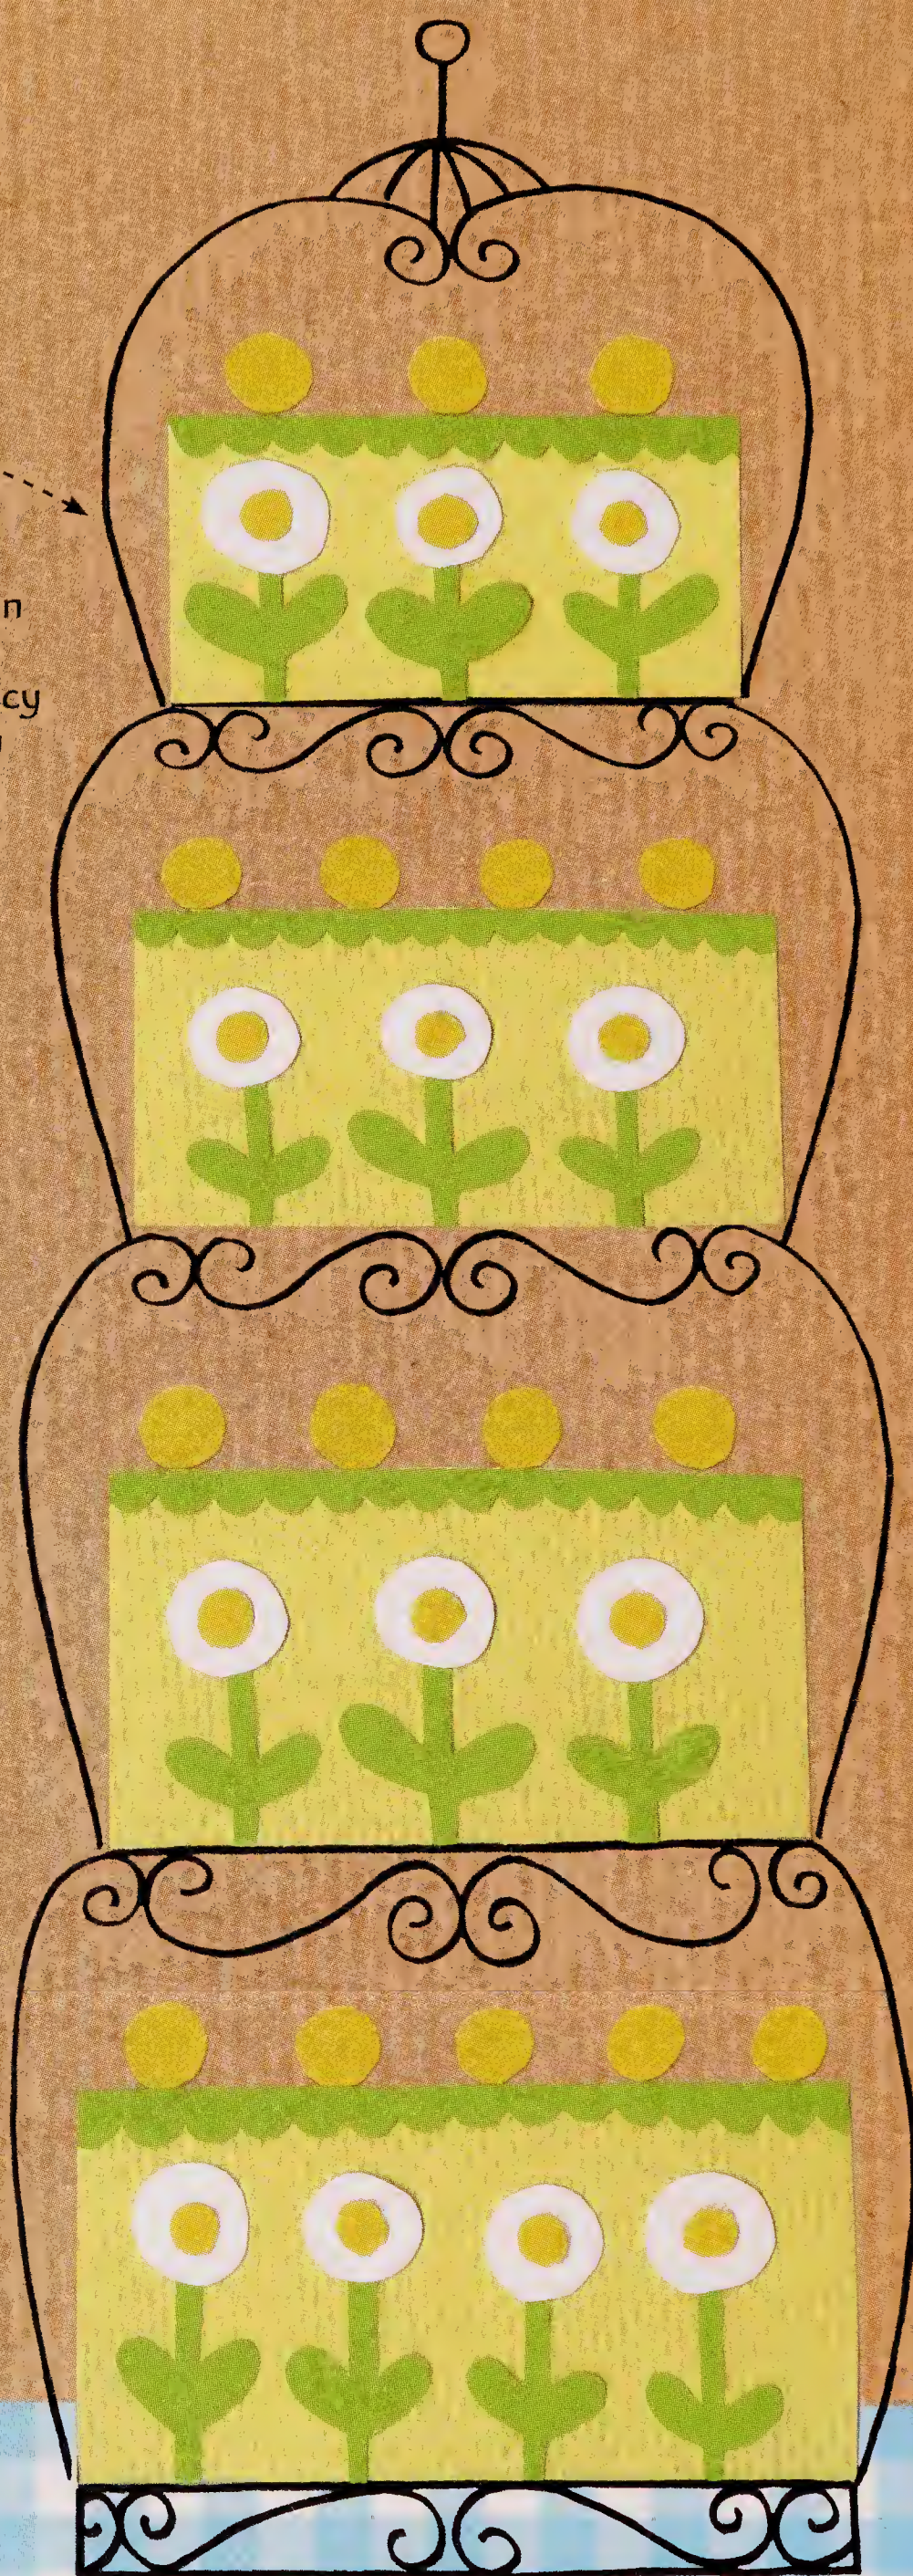

346

Fancy stand

Use a felt-tip pen to draw a cake stand with a fancy base. Add wavy lines for details on the stand.

You could add a ribbon on one layer.

These wavy shapes were cut from cardboard from a coffee cup sleeve.

Add a checked tablecloth.
