

Rat picture

Use the ideas shown on these pages to create a collage with lots of rats scurrying over pipes.

356

Burst pipe

Use a black pencil to draw water spirting out of a pipe.

For paper like this, draw pink wax crayon lines, then add paint on top.

357

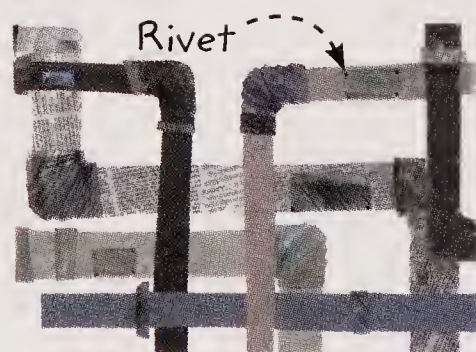

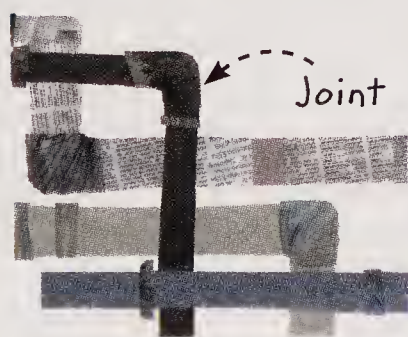

Make a rat

Cut out a teardrop shape for a body. Cut a tail, legs and ears from pink paper. Glue them onto a pipe, then draw eyes and a nose.

Draw fur and whiskers with pens or pencils.

358

A network of pipes

You could glue a pipe on top of a rat, to look as if it's going underneath it.

1. Cut strips of paper for pipes and glue them onto a larger piece of paper, overlapping each other. Glue on some curved joints.

2. Cut out more pipes and glue them on so that they gradually build up a network. Add metal plates with rivets, too.
