

61

A lump of cheese

Cut a piece from a cardboard tube. Then, squash it and glue one end together. Then, use chalks or pencils to fill it in and add some 'holes'.

You could make a hand with a pointing finger, like this.

63

Worried mouse

Draw an 'o' for a mouth, and arched eyebrows above the eyes.

You could give a pirate an eyepatch.

62

Pirate

Use different patterned papers for a T-shirt and a bandana. Cut out a sword and glue it onto one hand.

Draw a mouth.

5. Cut out a tail and cut a slit in it. Slot it onto the tube, too. You may need to move the tail and feet to make the mouse stand up.

Glue fingers onto the handle of the sword.
