

Birds on a wire

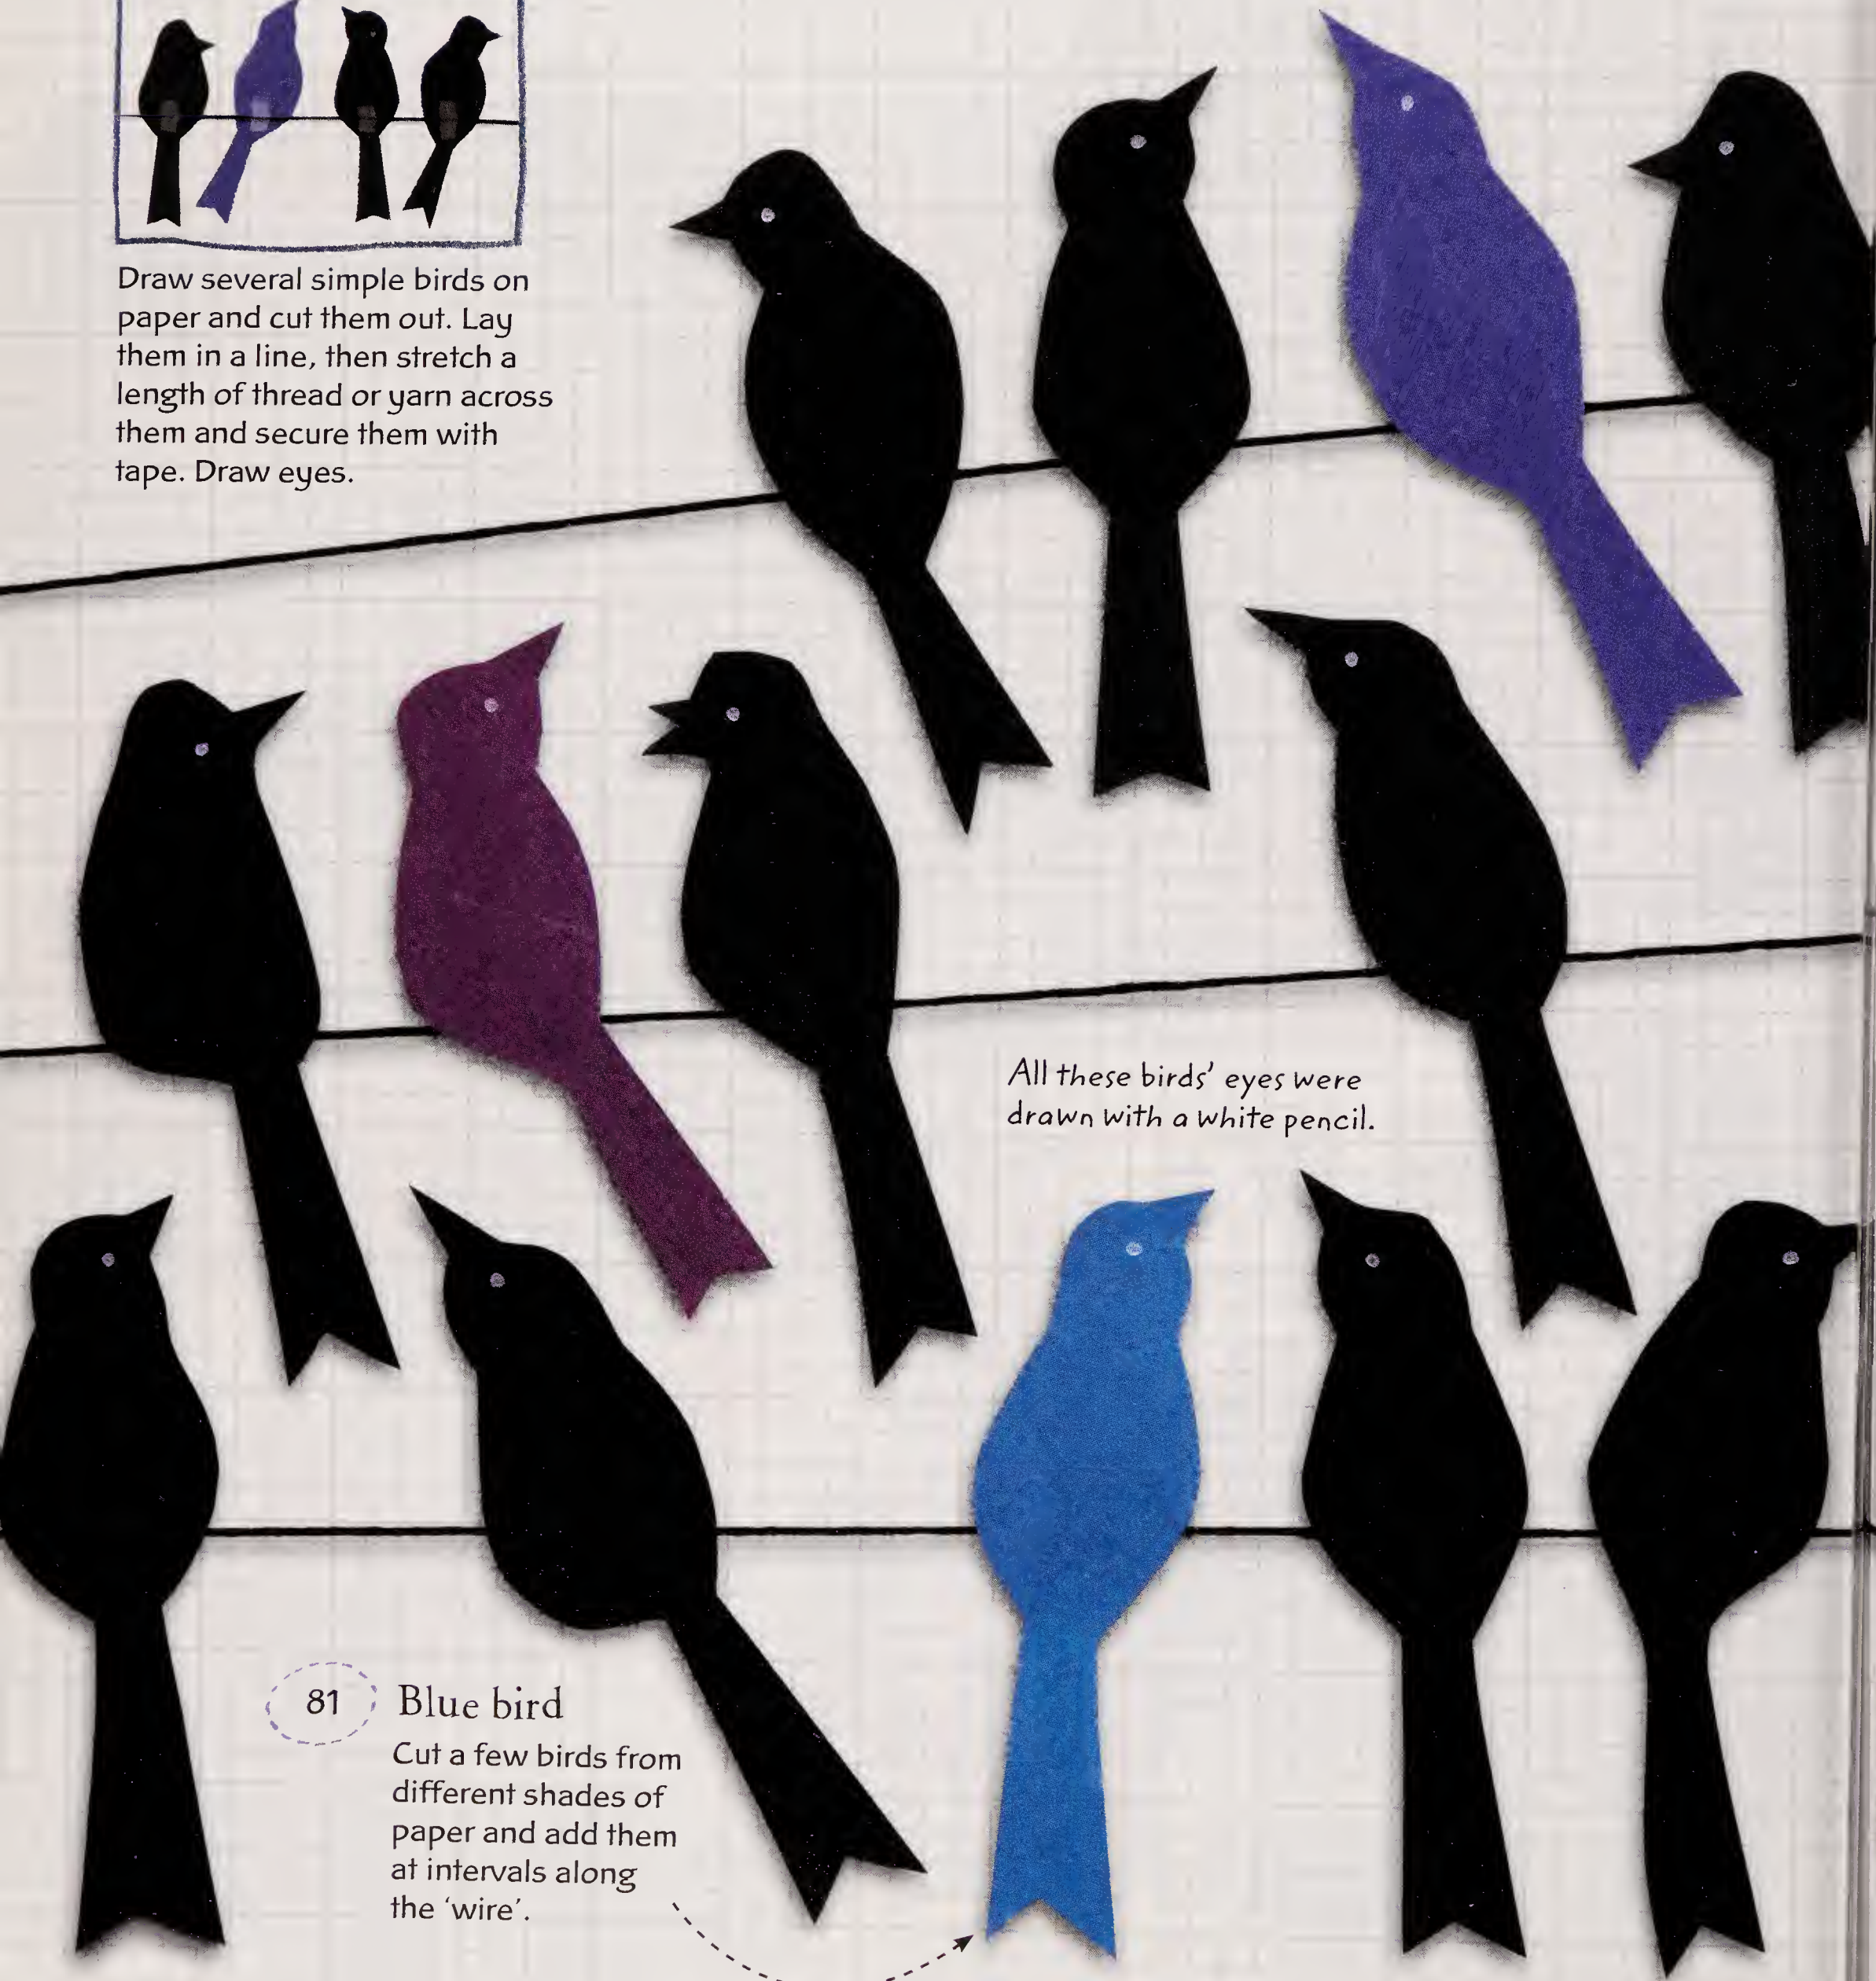

80

A line of birds

Draw several simple birds on paper and cut them out. Lay them in a line, then stretch a length of thread or yarn across them and secure them with tape. Draw eyes.

You could attach these birds to a window with tape, or pin them on a notice board.

All these birds' eyes were drawn with a white pencil.

81

Blue bird

Cut a few birds from different shades of paper and add them at intervals along the 'wire'.
