

Jungle picture

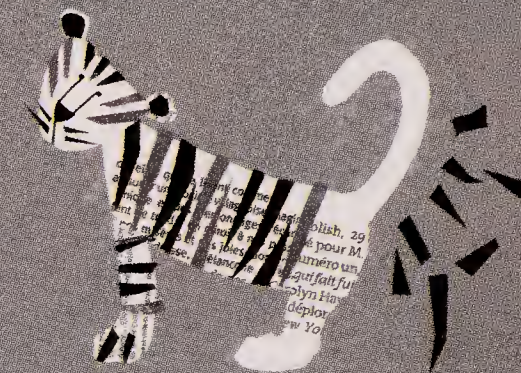

115 Tiger stripes

Head
and ears

Body

Tail
and legs

1. Cut out these shapes for a tiger and glue them together on a large piece of paper.

2. Draw eyes, a muzzle and a nose on the head. Then, cut little strips of paper and glue them onto the body and tail.

You could add some paper butterflies to a jungle picture.

It doesn't matter if the stripes overlap the edges.

113

Snake

Cut a shape for a body. Draw eyes, then glue triangles along the body. Add a forked tongue.

114

Lizard

Cut shapes for a body and triangles for a frill on its back. Add stripes and a tongue.
