

You could make a giraffe look as if it's stretching to eat some leaves.

116

Branches

Glue lots of leaves along the edges of thin, curved strips of paper.

117

Zebra

Cut out shapes for a body, neck, head, legs and tail. Add ears, too. Draw eyes and nostrils, then add lots of stripes.

118

Giraffe

Glue on roughly cut squares for the patterns on the neck and body.

Glue strips of paper below the animals for grass.
