

135

A crow

Cut out a body from black paper and glue it onto your picture. Add a paper eye and beak. Draw a pupil in the eye, a wing and tail feathers.

136

Windy sky

Draw swirls on your paper with a black chalk pastel and smudge it with a fingertip. Then, draw a line along it with an eraser.

The ground in this picture is made with lots of shapes overlapping each other.

You could add a crow searching for food.
