

Curious cats

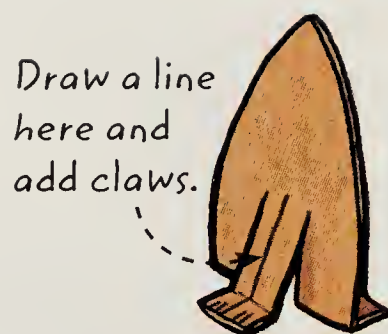

143 Simple cat

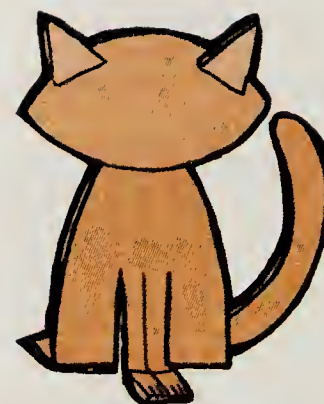

1. Draw a body on a piece of cardboard.

2. For the legs, make two cuts like this.

3. Fold the middle part forward for paws, then fold the other parts back.

4. Cut out a cardboard head and glue it on. Then, add ears and a tail.

Draw 'u' shapes for closed eyes.

144 Cleaning cat

Make just one cut on the body so that there's only one paw. Cut out a curved paw and glue it onto the back of the body. Glue on a small pink tongue, too.

145 Kitten

Follow the same technique, but make a much smaller body, head and tail.
