

Busy sky collage

2 Simple plane

1. Fold two pieces of paper in half and copy the shapes shown here onto them. Cut out the shapes.

2. Unfold the shapes. Then, glue the wings onto another piece of paper. Add the fuselage and tail.

You could draw windows along the side of a passenger plane.

3

Clouds

Draw a cloud with chalk or a chalk pastel. Smudge it with a finger, then draw around it again.

5

Engines

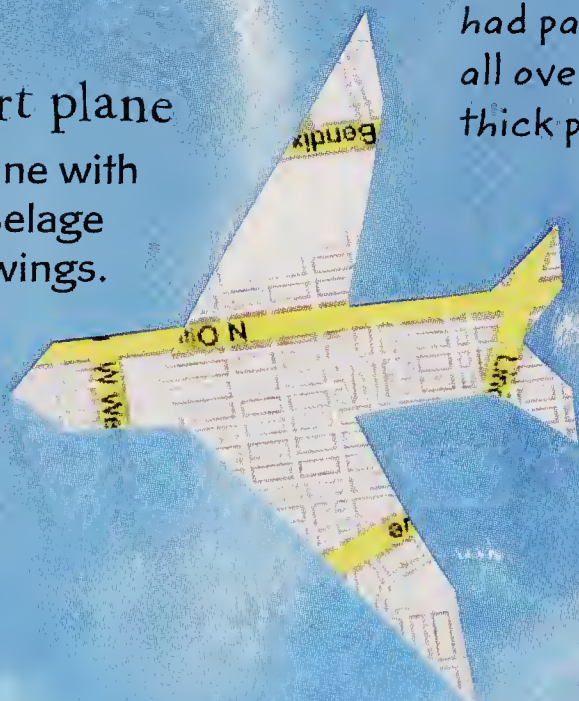

Cut out four little shapes for engines and glue them onto the front edge of the wings.

4

Transport plane

Make a plane with a wider fuselage and fatter wings.

This background had paint brushed all over it with a thick paintbrush.
