

170 Spider web

Use a white pencil to draw several long lines for the web. Join the lines with shorter curved lines.

171

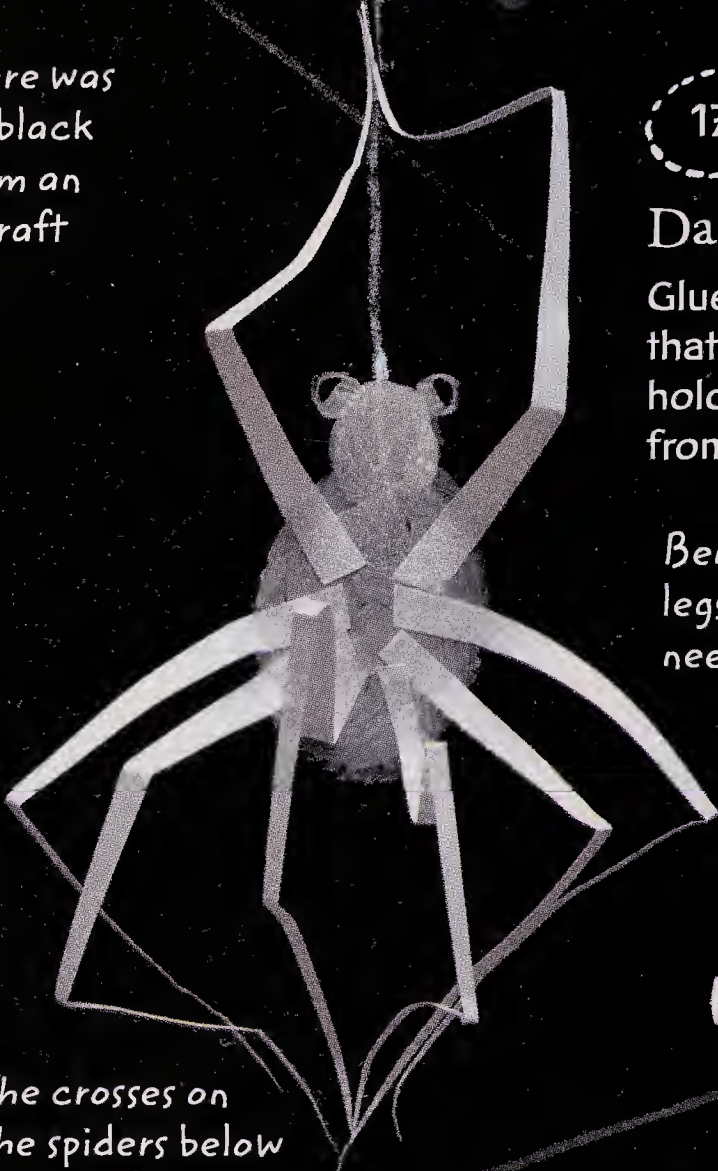

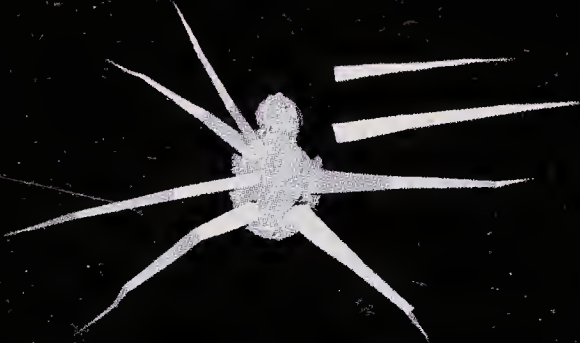

Dangling spider

Glue on the legs so that the top two are holding a thread from a web.

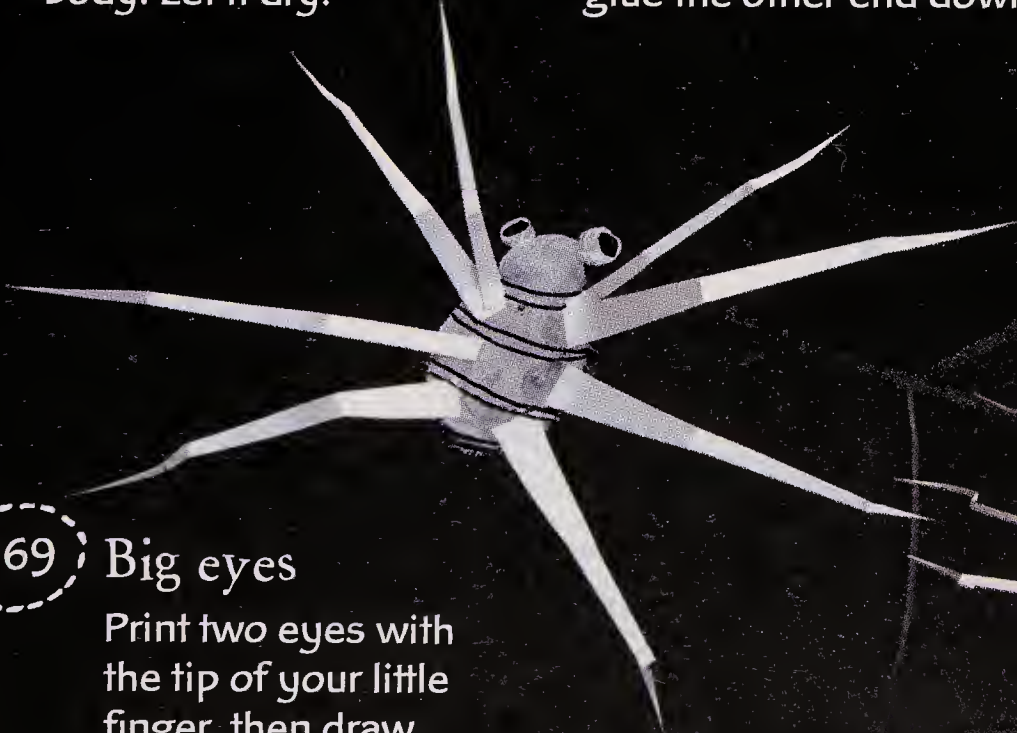

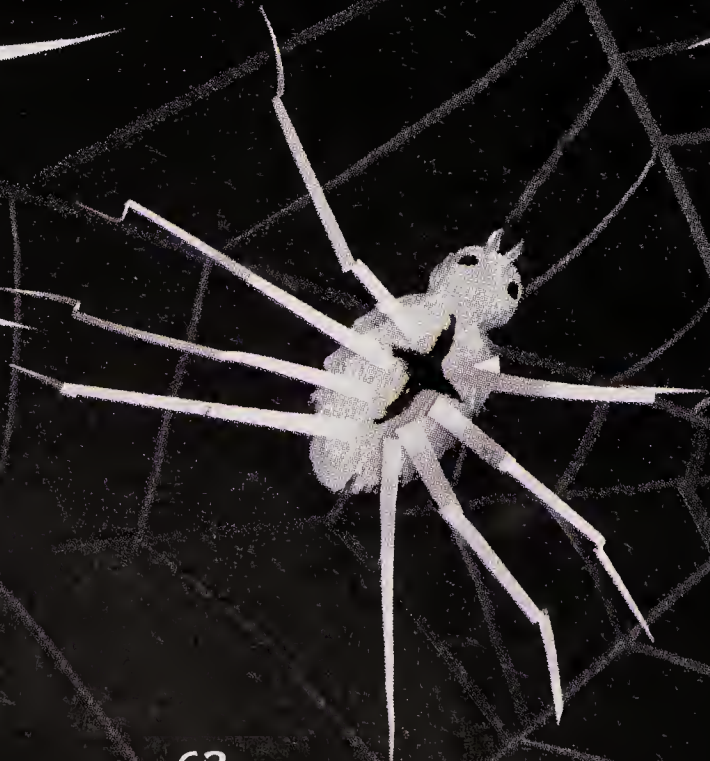

Bend the legs if you need to.

3-D spiders

168 Make a spider

The crosses on the spiders below were drawn with a black pencil.

169 Big eyes

Print two eyes with the tip of your little finger, then draw pupils on them when the paint is dry.
