

Collage trees

175 Summer tree

1. Draw the trunk and branches of a tree on a piece of thick paper or thin cardboard and cut them out.

2. Lay the tree on a piece of patterned paper and draw around it. Glue the paper onto a piece of thin cardboard and cut out the shape.

3. To make the tree 3-D, cut small pieces of thick cardboard, then follow these steps:

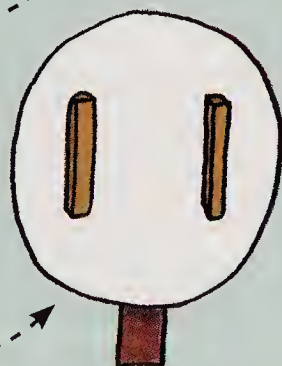

Glue two pieces onto the back of the branches.

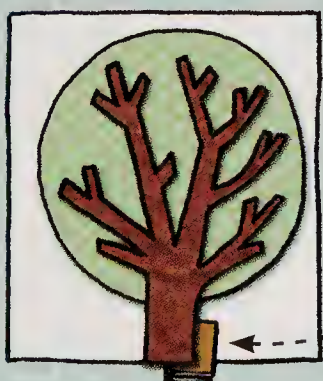

Glue them onto the patterned cardboard.

Glue two strips onto the patterned cardboard...

...and glue them onto a background.

4. Then, glue several pieces of cardboard behind the trunk of the tree so that it's raised up, but lies flat.

176

Blowing in the wind

Cut out some leaves and bend them around a finger to curl them. Glue them around the top of the tree.

177

Lots of leaves

Fold pieces of patterned paper in half several times. Cut out a leaf shape, then glue the leaves onto the branches.
