

Fast food collage

All the food and packaging on these pages have been made from scraps of paper that were roughly brushed with paint (see page 16).

216 Table with food

Use the ideas here to make a picture with lots of different kinds of food.

You could make a tub of ketchup.

217 Ice cream

Roughly mix some pink and white paint together and brush big swirls onto some paper. Cut out the ice cream shape when the paint is dry.

218 Burger

Cut shapes for a bun and add layers for lettuce, a burger, cheese and tomatoes (or anything else you like).

219

French fries

Cut lots of strips of orange-yellow paper for the fries, and use striped paper for the container.
