

Winter street scene

229 Make a background

Cut out buildings and glue them at the top of a piece of paper. Brush thick, white paint over the paper for snow.

230

Paper people

Cut out shapes for coats and jackets, and their sleeves, then glue them onto the background. Draw heads, and boots or shoes.

You could draw some dogs being taken for a walk.

231 Slipping over

Glue the body at an angle and arms stretched out in front. Draw one leg in the air.

Add little movement lines.
