

Cut-and-stick crazy animals

Use the ideas on these pages to create different animals with scraps of bright paper from old magazines and wrapping paper.

240

Tall bird

Glue on pieces of paper for a long neck, head and beak. Add a small body and thin strips for legs.

241

Dinosaur

Start by cutting out a shape for the body, neck and tail. Then, add the legs and a head.

You could make a mouse with long whiskers.

Glue lots of little pieces of paper on the legs.

You could make a dog with stripes on its ears, feet and tail.

242

Dancing bird

Glue on the legs at different angles to make a bird look as if it's kicking one leg high into the air.
