

Cardboard dinosaurs

253

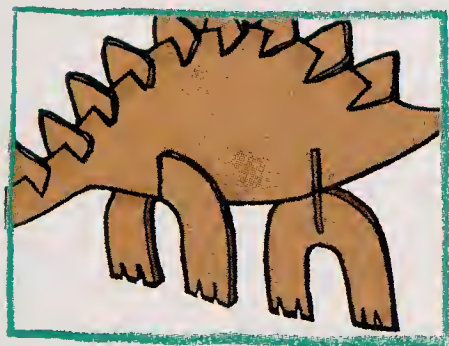

Tall dinosaur

1. Draw the shapes shown here for the body and legs on pieces of cardboard, then cut them out. Draw an eye on the head.

2. Cut out lots of spikes from scraps of cardboard. Make them different sizes.

3. Cut slits along the body and tail. Then, cut a slit in each spike and slot it onto the body.

4. Cut 'v' shapes into the feet for toes. Then, cut two slits in the tummy and one in each pair of legs. Slot the legs onto the body.

Make the spikes get smaller and smaller along the tail and neck.

254

Leaves

Cut leaves from cardboard, then cut lots of slots along the edges.

Bend the toes forward a little.
