

257

Tree

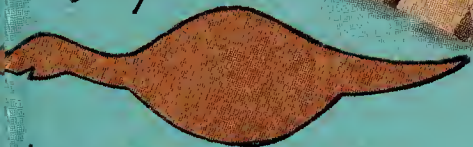

Cut two shapes like these, for the trunk. Cut slits in them, then slot them together. Cut out leaves and slot them in at the top.

255

Stegosaurus

For a stegosaurus, with lots of bony spines along its back, copy these shapes:-

Body

Legs

Spines

256

Plant

Cut two shapes for a short trunk and slot them together. Cut slits into them and slot in leaves.
