

Africa

Southern Africa

Southern Africa's thick rain forests, dry deserts, and rolling grasslands are home to a huge variety of animals and plants.

Congo rain forest

The Congo rain forest is home to a huge variety of wildlife.

Namib Desert

This desert has towering sand dunes. It contains diamonds and precious metals.

Victoria Falls

This dramatic waterfall drops over a steep cliff in the Zambezi River.

Did you know?

- The Great Rift Valley is a huge crack in the Earth's crust.
- At 19,340 ft (5,895 m), Mt. Kilimanjaro is the highest mountain in Africa.

Mount Kilimanjaro

Although this ancient volcano lies close to the equator, it is always covered in snow.

Great Rift Valley

This huge valley was formed millions of years ago. It is a land of lakes and volcanoes.

Baobab tree

These trees survive dry weather by storing water inside their trunks.

Serengeti Plain

This plain is a vast area of grassland. Huge herds of grazing animals live here.

Table Mountain

This flat-topped mountain is often hidden by a cloud that locals call the "tablecloth."

Wildlife

No two zebras are exactly the same. Their stripes camouflage them, and help confuse their enemies.
