

Towns and cities

Services

Office buildings are where many people work.

Hospitals can be big enough to treat thousands of patients.

Shopping is easy in a city. There are lots of big stores.

Schools are placed around a city for children of all ages.

Did you know?

The city of Venice, in Italy, is built on 108 islands. It has canals instead of roads!

Towns and cities are bustling places where thousands or millions of people live and work together.

City center

City centers are often built around a central square, where there are many historic buildings.

Fountains

Old buildings

Skyscrapers

Tall skyscrapers save space on the ground, and form an exciting skyline.

Transportation

Cable cars run on tracks and carry passengers up hills in some cities.

Buses are quick and easy for people traveling through the city streets.

Taxis are more expensive, but are useful for people who are in a hurry.

Ferries carry people along rivers and stop at many different landing points.

Entertainment

Cities have interesting places for people to visit or relax.

Parks are quiet, green spaces, away from busy streets.

Cafés are places to eat, drink, and watch the people passing by.

Museums and galleries have interesting objects and paintings to observe.
