

Asia

Eastern Asia

Eastern Asia is a vast area that has many great rivers, dry deserts, windy highlands, and flat, grassy plains.

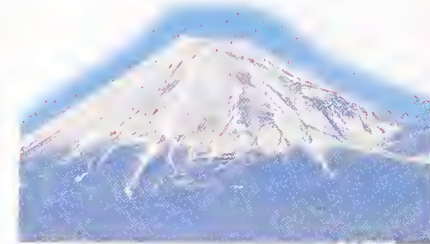

Yangtze River

The Yangtze River in China is the third longest river in the world.

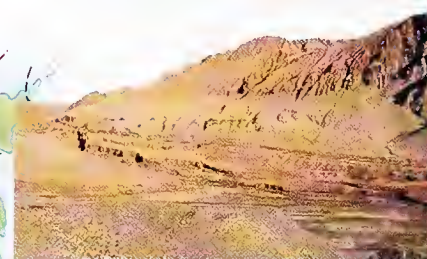

Rafflesia plant

This flower is the largest in the world.

Mount Fuji

Mount Fuji is Japan's highest and most beautiful mountain.

Gobi Desert

The rocky Gobi Desert is very hot in summer, but cold and windy in winter.

Tibet

Tibet is so high above sea level that it is known as the roof of the world.

Mangrove swamps

Mangrove trees grow along the coasts of the region's islands.

Did you know?

- There are more volcanoes in eastern Asia than anywhere else in the world.
- The country of Indonesia is made up of more than 13,000 islands.

Rain forest

Thick tropical rain forest grows on the hillsides of many of the islands.

Thailand's coastline

Parts of the Thai coastline have strange rocky towers and steep cliff faces.

Panda

Pandas live in the mountains of China. They feed on bamboo leaves.
