

Painting

Types of paintings

A **self-portrait** is an artist's painting of him- or herself.

Murals are large paintings that are done on a wall.

Portraits are pictures of people. They are not always true to life!

Abstract paintings use lines, shapes, and colors.

Landscapes are paintings of outdoor scenes.

People have painted pictures for thousands of years, creating works of art on walls, wood, paper, or canvas.

Painter at work

Many people enjoy painting as a hobby. They often work outside, painting from nature.

Easel for supporting the picture

Paints

Palette

Painters mix oil paints on a special wooden palette.

Did you know?

In the past, black paint was sometimes made out of ground-up mummies!

Painting surfaces

Artists paint on different surfaces, such as paper or canvas.

Paper

Canvas

Picture frames

A picture frame helps display a painting and protects it as it hangs on a wall.

Paints and inks

Artists create pictures with various materials. This makes their works look very different.
