

Homes and houses

Did you know?

Some people in Cairo live in an old cemetery, the City of the Dead!

Family house

Homes are often made of local materials suitable for the weather.

Apartment building

These have homes for lots of people.

Mobile homes

Some people live in homes that can be moved around.

Tepees and other tents are quick and easy to put up.

Campers are comfortable homes on wheels.

Houseboats are floating homes on a river or canal.

Caravans are homes pulled by horses or vehicles.

Home is where you live, eat, and sleep together as a family or alone. Homes give shelter from the weather.

Bedrooms are upstairs.

Porch over front door

Wooden walls

Garage

Row houses

These houses lie near the center of many older cities. They are built on one level.

Ranch house

Ranch houses have no stairs.

Homes of the world

Swiss chalets have sloping roofs to shed snow.

Greek homes often have white walls to reflect the Sun's heat.

New Guinean homes are built over lakes on stilts.

Nigerian homes are sometimes made of mud and straw.

Tunisian homes can be built underground to keep them cool.
