

AABB

In the *Orchestral Suite No. 2* by J. S. Bach, the Badinerie—or the quick, light movement in a suite—is an example of binary form. The A section is in B minor, and the B section is in D major. The B section transitions back to B minor, to end the piece in the key in which it began. For a fuller, more complete piece, composers often call for each section of the binary piece to be repeated.

▽ Badinerie

In 18th-century music, a Badinerie is commonly found as a light instrumental piece in duple meter—usually the final movement of a dance suite. This 1739 Badinerie was written for solo flute, strings, and continuo.

The musical score is presented in a single system with eight staves, each beginning with a measure number (6, 12, 16, 23, 28, 35). The key signature is two sharps (F# and C#), and the time signature is 2/4. The score is divided into two main sections, A and B, indicated by large brackets on the right side.

Section A (Measures 6-16): This section is in B minor. It begins with a treble clef and a key signature of two sharps. The melody is characterized by eighth and sixteenth notes. Annotations include:

- "Outlines the tonic B minor triad" pointing to measures 10-11.
- "Trill" pointing to a trill in measure 11.
- "Cadence in B minor" pointing to the end of measure 16.
- "Highlighting F#, the dominant of B minor" pointing to the F# note in measure 15.
- "Cadence in B minor" pointing to the end of measure 16.

Section B (Measures 16-35): This section is in D major. It begins with a repeat sign in measure 16. The melody continues with eighth and sixteenth notes. Annotations include:

- "Elaborating D major" pointing to the D major triad in measure 23.
- "Firmly in D major" pointing to the D major triad in measure 24.
- "Appoggiatura" pointing to a grace note in measure 28.
- "F#, the dominant of B minor" pointing to the F# note in measure 34.
- "The B section modulates back to the tonic, B minor." pointing to the final measure (35).
- "Transitions back to B minor" pointing to the final measure (35).
