

Other scales

In addition to major and minor scales, there are several other types of scales. These scales all cover the range of an octave, but they follow different patterns of intervals from the major and minor scales, and may include more or fewer notes.

Chromatic scales

A chromatic scale includes all the black and white keys of the keyboard, within the range of an octave. Each note of the chromatic scale is a half step apart. This means that the chromatic scale includes 13 notes in all, from top to bottom.

▷ Chromatic scale

A chromatic scale spans one octave and includes 13 notes from top to bottom, each of which is one half step apart.

▽ On the staff

Here are some examples of chromatic scales on the staff, one starting on C, and the other starting on A $\flat$. Each step in the chromatic scale is one half step.
