

CHAMAELEON

The Chamaeleon

Chamaeleon is a small southern constellation invented in the late 16th century. It is named after the lizard that can change its skin colour to match its surroundings.

Chamaeleontis

APUS

The Bird of Paradise

This small constellation's name means "foot-less" in Latin. At one point, naturalists in Europe thought that the beautiful birds-of-paradise, which Apus depicts, had no feet.
