

PTOLEMY

c.85–168 CE

Celestial map based on constellations named by Ptolemy

Ptolemy also wrote *Harmonics*, a work about the theory of music.

Ptolemy was a philosopher-scientist living in Egypt, at that time part of the Greek Empire that stretched from Greece to India. He was responsible for collating *The Almagest*, a collection of Greek scientific knowledge, that would stand the test of time for 1,500 years. He also listed 1,022 stars, and 48 constellations still in use today.

DATA FILE

KEY ACHIEVEMENT: Published *The Almagest*, a scientific text

COUNTRY OF ORIGIN: Egypt

YEAR OF ACHIEVEMENT: 150 CE
