

Become a master programmer

The secret to becoming a master programmer is to have fun. As long as you're enjoying yourself, there's no limit to how skilled you can become at coding, whether as a hobby or a lifelong career.

Ways to become a better programmer

Like skiing, learning the piano, or playing tennis, coding is a skill that you'll get better and better at over time. It can take years to become a true expert, but if you're having fun on the way, it will feel like an effortless journey. Here are a few tips to help you become a master programmer.

△ Code a lot

People say practice makes perfect—and it's true. The more code you write, the better you'll get. Keep going and you'll soon be an expert.

◀ Be nosy

Read websites and books about programming and try out other people's code. You'll pick up expert tips and tricks that might have taken you years to figure out on your own.

△ Steal ideas

If you come across a great program, think how you might code it yourself. Look for clever ideas to use in your own code. All the best programmers copy each other's ideas and try to improve them.

▷ Show a friend

Teach someone else to code and you'll learn a lot yourself. Explaining how coding works is a great way of making sure you understand it thoroughly.

▷ Train your brain

Your brain is like a muscle—if you exercise it, it will get stronger. Do things that help you think like a programmer. Solve logic puzzles and brainteasers, take up Sudoku, and work on your math.
