

20 Now add some music. Click the “Sounds” tab above the blocks palette. Each sprite has its own sounds, and they are managed here. Click the button on the left to add a sound from the library.

21 Select the “drip drop” sound and click the “OK” button at the bottom-right. The sound is added to the cat sprite, and appears in the “Sounds” area.

22 Click the “Scripts” tab to go back to the scripts area. Add this script to the cat sprite, so it plays the music all the time. Run the program and have fun!

Congratulations! You’ve written your first computer game.

Don’t forget to save your work

REMEMBER

Achievements

This project has shown some of the things Scratch can do. Here’s what you’ve achieved.

Created a program: By combining blocks of code into scripts, you’ve put together a game.

Added pictures: You’ve used both backdrops and sprites.

Made sprites move: You’ve made sprites chase each other.

Used a variable: You’ve created a timer for your game.

Used costumes: You’ve changed the dragon’s appearance using different costumes.

Added music: You’ve added a sound, and made it play when your program runs.
