

Hide and seek

Welcome to the special effects studio! Using the purple “Looks” blocks, find out how to make sprites vanish and reappear, grow and shrink, and fade in and out.

Hiding sprites

To make a sprite disappear, use the “hide” block. The sprite is still on the stage, and it can still move around, but it can’t be seen unless the “show” block is used to make it visible again.

▷ Hide and show

To make a sprite vanish, use the “hide” block. When you’re ready for it to be seen again, use the “show” block. These blocks are found in the “Looks” section of the blocks palette.

Use the “hide” block to make sprites disappear in games

▽ Disappearing cat

Try this script using the cat sprite. It disappears and reappears but it keeps moving, even when you can’t see it.

EXPERT TIPS

Showing sprites

Select a sprite in the sprite list. Click the “i” button on it to open the information panel. There you can also use the “show” tick box to show or hide a sprite.
