

CAROL VORDERMAN M.A. (CANTAB), MBE is one of Britain's best-loved TV presenters and is renowned for her skills in mathematics. She has a degree in Engineering from the University of Cambridge. Carol has a keen interest in coding, and feels strongly that every child should have the chance to learn such a valuable skill. She has hosted numerous TV shows on science and technology, such as *Tomorrow's World* and *How 2*, as well as *The Pride of Britain Awards*, on the BBC, ITV, and Channel 4. Whether co-hosting Channel 4's *Countdown* for 26 years, becoming the second best selling female nonfiction author of the noughties decade in the UK, or advising British Prime Minister David Cameron on the future of potential mathematics education in the UK, Carol has a passion and devotion to explaining mathematics, science, and technology in an exciting and easily understandable way.

DR. JON WOODCOCK M.A. (OXON) has a degree in Physics from the University of Oxford and a Ph.D. in Computational Astrophysics from the University of London. He started coding at the age of eight and has programmed all kinds of computers from single-chip microcontrollers to world-class supercomputers. His many projects include giant space simulations, research in high-tech companies, and intelligent robots made from junk. Jon has a passion for science and technology education, giving talks on space and running computer programming clubs in schools. He has worked on numerous science and technology books as a contributor and consultant.

SEAN McMANUS learned to program when he was nine. His first programming language was Logo. Today he is an expert technology author and journalist. His other books include *Scratch Programming in Easy Steps*, *Web Design in Easy Steps*, and *Raspberry Pi For Dummies*. Visit his website at www.sean.co.uk for Scratch games and tutorials.

CRAIG STEELE is a specialist in Computing Science education. He is Project Manager for CoderDojo Scotland, which runs free coding clubs for young people. Craig has previously worked for the Scottish Qualification Authority, Glasgow Science Centre, and the University of Glasgow. Craig's first computer was a ZX Spectrum.

CLAIRE QUIGLEY studied Computing Science at Glasgow University where she obtained a B.S. and a Ph.D. She has worked in the Computer Laboratory at Cambridge University and on a project that aimed to develop computational thinking skills in primary school pupils. She is a mentor at CoderDojo Scotland, a coding club for young people.

DANIEL McCAFFERTY holds a degree in Computer Science from the University of Strathclyde. Since graduating, he has been developing software for some of the world's largest investment banks. In his spare time, Daniel is a mentor at CoderDojo Scotland, a coding club for young people.
