

Conversations

To create a conversation between sprites use “broadcast message and wait” blocks with “say” blocks, which make your sprites talk using speech bubbles. Start a new project and add two monkey sprites to it. Give the script on the left to one monkey, and the two scripts on the right to the other.

△ Chatty monkeys

This program works because it uses the “broadcast message and wait” block. If the “broadcast message” block was used, the monkeys would talk over each other.
