

How long
will your
suncatcher
last? That
depends on
how warm the
Sun is.

Icy suncatcher

Make a pretty **ice picture**
to hang up outside. It will
shimmer and shine until
the **heat** of the Sun
melts the ice. Then
it will turn back
to **water**.

You will need:

Slices of fruit
Cake tin or foil pie tin
Food colouring and water
String or ribbon
Scissors
Freezer

Try adding drops of extra food
colouring before freezing.
