

Place a teddy bear or a favorite toy in a paper bag inside a small cardboard box. Put the box in a paper bag. You can even add a couple more layers, if you want. Ask your baby where the teddy bear is as you unwrap each layer, and let him reach for his bear as you open the paper bag.

Ready to clap

To help your baby get used to clapping, try a new clapping song such as "If you're happy and you know it, clap your hands." When you repeat the song, place your hands gently over his and bring them together. You'll be helping him practice his gross and fine motor control and rhythm.
