

Bubble bottle

Half-fill a small plastic water bottle with water, and add a few drops of dish-washing liquid and food coloring. Screw the lid back on very firmly. Shake the bottle, give it to your baby to hold and watch colored bubbles appear inside the bottle. You can also roll it along the floor and watch the bubbles form, or use it as a bath time toy.

Apple fingers

Dab a little unsweetened apple purée onto each of your baby's fingers and encourage him to lick it all off. Count off each finger aloud as he sucks off the purée.
