

Messy play

Combine 2 cups of cornstarch with approximately 1 cup of water and a few drops of natural food coloring to make a gloppy mixture that your baby can get messy with. Sit him in his high chair with a bib on, put the mixture on the tray, and let him spread it around with his hands. You may want to use a spoon to put some of the glop onto the palms of his hands so he can feel the sensation of it oozing through his fingers.

Shadow show

Shine a flashlight against a wall in a dimly lit room. Make shapes with your hands to create simple animal shadows as you tell your baby a short story.
