

by this age

your baby is probably able to:

- ❁ Make eye contact with you
- ❁ Recognize your face and bold, contrasting patterns up close
- ❁ Copy your facial movements
- ❁ Know your smell
- ❁ Recognize the sound of your voice
- ❁ Be sensitive to touch
- ❁ Use his instinctive reflexes of turning his head, rooting, and grasping with his hands (palmar reflex)

Some babies may even be able to:

- ❁ Discern sweet and sour tastes
- ❁ Use different cries to attract your attention
